

CALL FOR PAPERS

International Journal of Computer Science and Information Security

IJCSIS

ISSN: 1947-5500

Special Issue May 2009

International Journal of Computer Science and Information Security promote timely dissemination of high impact research that makes fundamental contribution to the advancement of both theoretical understanding and practical performance of communication networks and security. Paper submissions are invited in the area of computer science, in particular the technological advances and research results in the fields of theoretical, experimental, and applied Computer Science and Information Technology. Topics of interest include but are not limited to the following:

- ✦ **Internet Technologies, Infrastructure, Services and Applications**
- ✦ **Open Source Tools, Open Models and Architectures**
- ✦ **Security, Privacy and Trust**
- ✦ **Network Security: privacy, authentication, access control, intrusion detection and prevention**
- ✦ **Navigation Systems, Location Based Services Social Networks and Online Communities**
- ✦ **ICT Convergence, Digital Economy and Digital Divide**
- ✦ **Networks and Communications Protocols: error recovery, flow and congestion control, routing, multicasting, medium access control**
- ✦ **Computing and Information Systems**
- ✦ **Grid Architectures and Services**
- ✦ **Emerging applications and systems**

All paper submissions will be handled electronically and detailed instructions on submission procedure are available on IJCSIS web pages (<http://sites.google.com/site/ijcsis/>). Accepted papers will be published online and indexed by Google Scholar, CiteSeerX and Directory for Open Access Journal (DOAJ), Bielefeld Academic Search Engine (BASE) and SCIRUS. The authors of accepted papers will receive a CD-ROM of the IJCSIS Volume.

Important Dates:

Paper Submission Date: 20 April 2009

Acceptance Notification: 15 May 2009

Online Publication Date: 30 May 2009
